The Liberal & Nationals' plan to get Victoria Back to Work

Victorians have endured a lot this year.

The effects of the pandemic have touched all of us in different and profound ways. We now face more difficult social and economic recovery from the pandemic than anywhere else in Australia. Victoria needs a plan to keep our community safe from COVID-19, but at the same time to turn our focus to get Victorians back to work to repair the economic damage of lockdowns.

Recovery will be hard, but it is an opportunity to reshape our state, rebuild businesses and industries, and reclaim the Victorian way of life, which made Melbourne the most liveable city in the world.

The Victorian Liberal Nationals' Back to Work Plan will generate new jobs throughout the Victorian economy and give back security, and the feeling of security, to all.

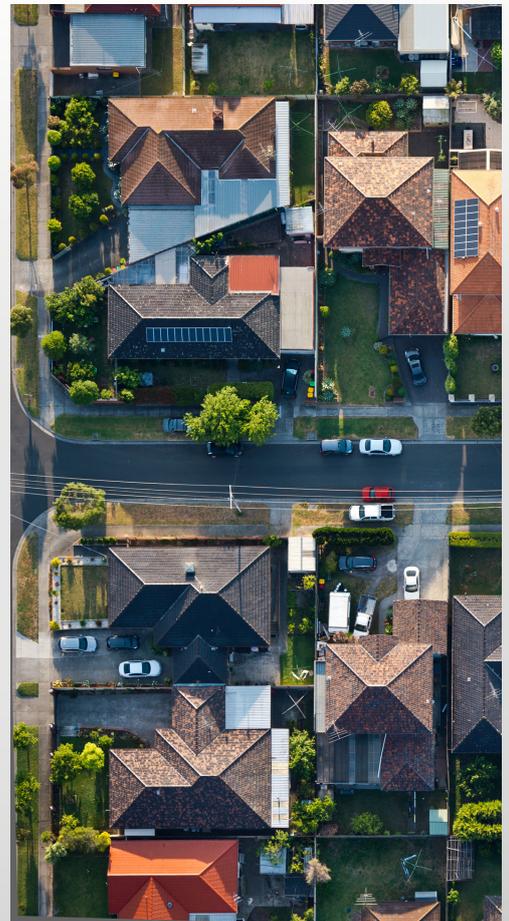

Our plan is for immediate action so that Victorians can get their jobs back, provide for their families, open their businesses, meet their rent and mortgage payments, educate their kids, keep healthy and protect elderly Victorians.

✓ **SECURING YOUR FAMILY FINANCES**

✓ **REBUILDING LOCAL BUSINESS**

✓ **INVESTING IN HEALTH AND EDUCATION**

✓ **SUPPORTING OUR COMMUNITIES**

The Liberal & Nationals' plan to get Victoria Back to Work

This is our Plan to rebuild from the damage done to our jobs, our communities and our way of life.

This Plan is for now — Victorians can't wait for the next election.

PETER WALSH MP
Leader of the Nationals
