

Back to Work
and Back
in Business

The Liberal & Nationals' plan to get Victoria Back to Work

Since the beginning of 2020, over 143,000 Victorians under the age of 25 have lost their jobs.

Younger Victorians need:

- Greater financial security
- Opportunities to regain employment and build their careers
- A chance to enjoy Victoria's world-class hospitality, events and tourism
- Strong, supportive communities

Youth job losses in Victoria
(Sep 2020 ABS Labour Force figures)

Boost recycling and use of waste as an energy source, and fast-track a Victorian Container Deposit Scheme.

Generate new employment opportunities by providing \$50 million towards attracting new events to Victoria.

'Road Trip for Victoria' vouchers offering up to a \$200 discount on tours or accommodation when booking three nights or more, stimulating tourism in our state.

50,000 new homes through industry-delivered 'Build to Rent', boosting housing affordability and jobs. Ten per cent should be provided as public housing.

**Our Plan to get
VICTORIA
Back
to Work
and Back
in Business**

The Liberal & Nationals' plan to get Victoria Back to Work

Victorians have endured a lot this year.

The effects of the pandemic have touched all of us in different and profound ways. We now face more difficult social and economic recovery from the pandemic than anywhere else in Australia. Victoria needs a plan to keep our community safe from COVID-19, but at the same time to turn our focus to get Victorians back to work to repair the economic damage of lockdowns.

Recovery will be hard, but it is an opportunity to reshape our state, rebuild businesses and industries, and reclaim the Victorian way of life, which made Melbourne the most liveable city in the world.

The Victorian Liberal Nationals' Back to Work Plan will generate new jobs throughout the Victorian economy and give back security, and the feeling of security, to all. Our plan is for immediate action so that Victorians can get their jobs back, provide for their families, open their businesses, meet their rent and mortgage payments, educate their kids, keep healthy and protect elderly Victorians.

Provide job skills training to enable young people to gain the skills they need to build a career

Restore 143,000 youth jobs by 1 January 2022

Discount council rates and permit fees for small businesses until mid-2022

Additional funding for mental health services from the Victorian Government

Improved access to seed funding for startups

Allow purchasers of new build homes to defer applicable stamp duty payments until mid-2022
